ABOUT WORKSHOP

A 5 days workshop on Applied Economics is planned to be held at School of Economics, Quaid-i-Azam University, Islamabad from August 5, 2014 to August 9, 2014. In this workshop, experts in various fields are going to teach how to use software’s for data analysis in Economics and Management Sciences. This will be the third workshop among the series. The use of these software’s is increasing day by day in qualitative as well as in quantitative research. So a better understanding to these software’s will enable researchers to conduct a research of good quality.

WORKSHOP OBJECTIVES

Main objectives of organizing a 5 Days Workshop on Software for Economics Research are as under:

- To introduce statistical tools available in various software’s.
- To introduce software’s that can help students and researchers for conducting research.
- To introduce statistical tools available in various software’s.

WHO SHOULD ATTEND

The target participants of the workshop are the faculty members, PhD and MPhil students, and researchers at various institutes who have to use software to teach or to conduct research at various levels. PhD and MPhil students are highly encouraged to attend the workshop for better understanding about the software’s.
